Maple Park Comments Summary:

Improve street crossings and safety around Maple and Lexington, bathrooms need to be added, more lighting, concrete chess tables, more shade trees throughout the park, add seating for observers of games on all courts, cricket field (here or somewhere in the park, currently there are only 2 in the metro), support existing sports (volleyball and sepak tawkraw) in the park, pickleball courts, more trashcans, mobility hub close to the park rather than the gate to cliff drive. More courts (pickleball, sepak tawkraw, volleyball).

Generally, there was more support for a dog park than urban agriculture, lots of neighborhood-scale urban agriculture exists in the area.

*There are two different options labeled "1" in these responses. After the survey was out for a few hours, some participants expressed confusion with the original wording of "nature loop" because it was too vague. All votes for "1" are for the same elements.

Reservoir Themes Comments Summary:

Improve sightlines to the reservoir, the reservoir could be a skate park, there shouldn't be cars in the park, improve lighting in the area, more sports or interactive structures for kids, if there are bathrooms make sure they are well maintained, add items (rocks?) to block cars from driving through the grass, pickleball courts, generally more space for sport courts were encouraged in comments, protected bike lanes throughout the roads in the park so people can safely ride their bike through the park, maintain overlooks.

Please consult outdoor theatre companies or other venues. There are several unusable amphitheatres in KC. Generally, comments about an amphitheater were cautioning against it.

The next section addresses the Reservoir. The Kansas City Design Center Student Studio (Masters students enrolled in Kansas State Universit...se select the elements of the design you like.

Lake Comments Summary:

Add more direct access from Lexington to the lake (could there be more stairs?), add some more seating and picnic tables by the lake, make sure the boardwalks aren't slippery, temporary restrooms with a permanent enclosure would be nice, there should be a sidewalk along Chestnut connecting Independence Avenue and J Reiger.

*There are two different options labeled "1," "3," "4," "6," "7" in these responses. After the survey was out for a few hours, some participants expressed confusion with the original wording of "lake edge restoration," "vegetated forebay," "visitor's center," "green infrastructure," and "interpretive dock" because they are too vague. All votes for "1," "3," "4," "6," "7" are for the same elements.

Concourse Comments Summary:

Generally, comments did not support a hotel in this part of the park or commercial uses, there was some support for a cafe. There is a lot of support for a splash pad and for closing Gladstone Boulevard between the east and west sides of the Concourse in the comments.

Hill by the Kansas City Museum Comments Summary:

Comments were opposed to the hotel. Other suggestions and comments talked about the importance of maintaining the sledding hill and potentially adding a dog park. There were some suggestions to add parking to provide space for museum visitors.

Indian Mound Comments Summary:

There is a small WWI marker near (5). It would be nice to have a small playground or splash pad at the bottom of the hill or walking loop, traffic calming around the park, and more shade in the park. There was a lot of support for Indigenous art and history being amplified in the area.

North East Athletic Field Comments Summary:

There is a lot of support for FC Global to take on the land as a soccer field and hub for their mentorship programs. There were some comments that encouraged developing this site into an ATV/fourwheeler/dirtbike zone to give those users an appropriate space to ride.
